

ICLEI USA

“Strengthening & Supporting Your Future”

ICLEI - Local Governments for Sustainability

- **Global network of 1,500 cities, towns and regions in 108 countries**
- Committed to **building a sustainable future** - www.iclei.org
- **Established in 1990**
- **Expertise** on low-carbon, ecomobility, resource-efficiency, resilience, biodiversity, health, green economy, smart infrastructure, smart city, sustainable procurement
- Provide **policy and technical guidance, tools, peer-learning and exchange** to local and subnational governments
- **Advocacy** in UN processes such as the UNFCCC
- Through our work we **impact over 25% of the global urban population.**

Exclusive Member Benefits

- Access to the ICLEI Member Network
- Cutting edge tools and technical assistance
- Members' Only Resources
- Climate Protection and Sustainability Resources
- Media, Communications & Outreach Support
- Funding & Recognition Opportunities
- Elected Official Engagement through Compact of Mayors

ICLEI USA Program Focus

**Emissions
Management**

**Climate
Preparedness**

**Resource-
efficiency &
Renewables**

**Climate
Equity**

**Climate
Finance**

**International
Collaboration**

**Leadership
Campaigns**

**City-Business
Collaboration**

Training

Our self-paced online training modules get you quickly up to speed on each step of the inventory process.

ICLEI's Sustainability Planning Framework

ClearPath

AN ICLEI USA TOOL

First comprehensive online emissions management platform for local governments in the world

About SEEC

SEEC Climate and Energy Management Suite

Welcome to the Statewide Energy Efficiency Collaborative (SEEC) Climate and Energy Management Suite. Within this set of tools you will be able to manage energy and greenhouse gas emissions at both the local government operation and community scales. The first two modules of the suite will allow you to perform an emissions inventory and forecast. Later in 2013, climate action planning and monitoring modules will be added. Select from the Government or Community track below to begin.

For more information on the tools contained in this application, download and read the user guides:

- Inventory Module
- Forecast Module

For technical support, please email SEECApps@iclei.org

Latest Inventories

Name	Year	Status	Records
TRANSPORT TEST	2013	In Progress	Records
2012 Inventory	2012	In Progress	Records
2012 Update	2012	In Progress	Records
6/30/12	2012	In Progress	Records
Test Inventory - JIK (ICLEI)	2012	In Progress	Records
WMT Forecast Test	2011	In Progress	Records
2010 Inventory	2010	Complete	Records
Test 2010	2010	In Progress	Records
Just Upstream and Consumption	2008	In Progress	Records
Test Inventory 8	2007	In Progress	Records

Government Track

Within this track you will find the resources you need to perform a Local Government Operations Protocol compliant greenhouse gas emissions inventory and forecast.

Community-Scale Track

Within this track you will find the resources you need to perform a US Community Protocol compliant greenhouse gas emissions inventory and forecast.

High-Level Features

- Online, “Cloud-Based” Application
- Collaboration supported w/ multiple users per jurisdiction and multiple jurisdictions per user
- Secure data storage with daily backups
- Remote support and training
- Track progress over time
- ICLEI in Constant development mode

Resilience and Adaptation Services

- Local Government Capacity Building
- Adaptation Planning
- Inclusionary Stakeholder Engagement
- Connecting Communities to Climate Science

Global 100% RE Cities and Regions Network

Cities, towns and regions with:

- a **100% RE target in at least one sector or commitment to explore the 100% RE pathway**
- interest in **international cooperation**

Platform for knowledge exchange and policy dialogue with other leading cities

- inclusive, global
- free of charge

Benefits of engaging

- Learning and cooperation opportunities with other leading cities
- Thematic guidance and workshops
- Access to experts on renewable energy and energy efficiency
- Globally promote local solutions and service providers
- Worldwide recognition of the progress achieved locally
- Visibility to champion local and regional leaders on a global level

About SEEC

The Statewide Energy Efficiency Collaborative (SEEC) is an alliance to accelerate action by California cities and counties to **reduce greenhouse gas (GHG) emissions and save energy.**

About SEEC

The collaborative employs a variety of **strategies to catalyze local climate and energy action:**

- Education and tools for climate action planning
- Venues and opportunities for peer-to-peer networking and information sharing
- Technical assistance to implement, track and assess progress of cities and counties

www.carbonn.org

carbonn® Climate Registry

The global reporting platform for cities, towns and regions tackling climate change
- created to support transparency, accountability and credibility

715

10% of the world population represented

949

Number of entities registered to the cCR

82

Countries

1410

Climate Targets

6245

Mitigation and Adaptation actions

1.1

Committed GHG emission reductions by 2020

870 renewable energy actions
245 renewable energy targets
163 energy performance inventories

- **Be visible:** Showcase your climate commitments, progress and actions. Let us celebrate your leadership!
- **From local to global:** Report your solutions and inspire others to support local, national and global climate action.
- **One platform for all:** The cCR serves 16 initiatives: report in one place to benefit from all major climate initiatives on key topics.
- **Demonstrate good governance:** Report publicly – share information, be transparent, accountable and credible, using a local MRV process
- **Support/inform your clients:** Measure, manage and report to inform your council, staff, citizens, businesses, industries and other levels of government.
- **Compare, contrast and learn:** Services provided include analyses, statistics, profiles and good practices.
